## **Together at the 4th edition of the EUROPEAN SOCIAL FORUM**

After the meetings presented in the 2002 ESF (Florence), in the 2003 ESF (Paris) and in 2004 ESF (London) we would like to continue reflecting on the role of religions in building the future Europe. We hope that Europe could become sign and instrument of justice and peace for all the world; as christian social movements we are engaged in this challenge!
